

COMMERCIAL MARITIME KA

HIGH SPEED KA

Beneficial for Both Crew Welfare as well as Operational Efficiency

→ Crew Welfare

- Stream Movies
- Utilize FaceTime
- Browse Social Media
- Browse the Web

→ Operations

- Zoom Safety Meetings
- Moxie Media Training
- Troubleshoot Parts with YouTube

"The ability to access YouTube for troubleshooting for parts needing to be rebuilt is a game-changer, and crew morale has been 'through the roof' since switching over to BlueTide's KA service."

Jackson Offshore,
a highly valued BlueTide customer

Technology as we know it is expanding daily.

What does this mean for the maritime industry?

This means more devices in hands, more workstations onboard, and more bandwidth needed to efficiently operate this technology.

MARITIME COMMUNICATIONS

BlueTide offers a new VSAT service specifically designed to provide an "at home" internet experience for the commercial maritime industry.

MANAGED WIFI

BlueTide offers managed WIFI allowing our commercial customers to focus on what's important to them while we make sure they are connected, online, applications are up-to-date, and so much more!

CCTV

Our CCTV service feeds a live stream from the vessel directly to your desktop or smartphone!

- Live Back Deck Camera
- 30 Day Storage
- Real-Time Streaming via AWS Server

VESSEL TRACKING

Vessel Tracking with 15-minute position updates.
