

# MARITIME CYBERSECURITY

Our **Cybersuite** aligns with industry standards such as BIMCO, IMO, and NIST. Our tools cover numerous guidelines, and our assessments provide remediation recommendations for your SMS code mandated by the ISM code. This ensures a robust cybersecurity defense and compliance with established guidelines.

In a cyber assessment done by a multinational professional services firm, the most effective way to boost coverage was the implementation of an MSP followed by tool implementation and in-house initiatives. Our cybersecurity suite offers a solution to contribute to each of these categories creating extensive cyber protection.

## BUILDING COMPREHENSIVE CYBERSECURITY

## NIST CYBERSECURITY FRAMEWORK

Cybersecurity Framework of 5 categories, 23 subcategories, and 108 individual standards, guidelines and best practices to manage cybersecurity risk.

1. IDENTIFY	2. PROTECT	3. DETECT	4. RESPOND	5. RECOVER

# MARITIME CYBERSECURITY

**52%** Bluetide Cybersuite

**48%** SMS

We initiate our cybersecurity coverage by employing tools and conducting interviews to perform a comprehensive cyber risk assessment. This assessment allows us to identify the following:

- Overall risk rating
- Identify top risk areas
- Industry Comparison Percentiles
- CISO recommended remediation for policy practices not covered by our tools

**All in a Customer-Friendly Risk Report**

## EMPLOYED TOOLS

- Cybersecurity Assessment
- IoT Security
- XDR, EPP, EDR, CWPP
- BCDR
- Cybersecurity Training
- SIEM
- 24/7 365 SOC
- RMM
- Phishing Campaigns

### PROTECT

### DETECT

### RESPOND

### RECOVER

Covered by BlueTide Cybersuite
  In-House Safety Management System Policy
